Chairman  
University Grants Commission  
20, Ward Place,  
Colombo 07.

Dear Sir,

Invite university students who invented inventions/innovations to participate "Sahasak Nimavum" International Inventions and Innovations Competition

The Sri Lanka Inventors Commission (SLIC) is a public organization that was established by the Sri Lanka Inventors Incentives Act, No. 53 of 1979, and is currently operating under the purview of the Ministry of Science & Technology.

We are delighted to announce the 5<sup>th</sup> edition of the "Sahasak Nimavum" International Inventions and Innovations Competition, and the 12<sup>th</sup> edition of the National Exhibition is scheduled to be held from 25<sup>th</sup> to 27<sup>th</sup> April 2025 at the BMICH, Colombo, and the Award Ceremony will be on the 06th May 2025 at the Main Conference Hall of BMICH.

As always, the exhibition will gather national and international professionals, academia members, investors, diplomats, students, and the general public who have an interest in inventions and innovations, offering an outstanding platform to showcase the innovative talents. "Sahasak Nimavum" is the only exhibition in Sri Lanka that comes up to the standards of international level and showcases more than 500 exhibits (inventions & innovations) within a single location.

In this regard, we will expect to allocate a prominent area exclusive to all university-level inventors to showcase their innovative talents representing respective universities at the exhibition.

Accordingly, we kindly request you to convey this message to the Vice Chancellors of all state-owned universities under the purview of the University Grants Commission to get the participation of innovative university students in "Sahasak Nimavum 2025."

Furthermore, this is a good opportunity for all university students to get the exposure of inventions & innovations by visiting the event during the scheduled dates. For further information, please do not hesitate to contact Mr. Laksitha Rathnayake, Assistant Director of Projects of the Commission, via 0719507132 or 011 2676650 or by fax at 011 2676646.

Your valuable contribution to promoting an innovative culture in Sri Lanka is highly appreciated.

Thank you.  
Yours sincerely,

Prof. Veranja Karunaratne  
Commissioner  
Sri Lanka Inventors Commission
