

NOTICE

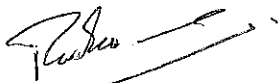

To All Students of Faculty of Indigenous Medicine

A meeting was held on 01-12-2023 with participation of the two members of the Council, two Executive Officers of the University and five Student Representatives of the Faculty of Indigenous Medicine to discuss about the prevailing hostel issue and made following recommendations (Subject to the approval of the Council);

1. To remove part of the existing reading hall (as adequate) at Weediawaththa Wickramarachchi Girl's Hostel, partition it appropriately, and accommodate twenty-two (22) female 2nd year students of 2020/ 2021 intake of Faculty of Indigenous Medicine who are currently forcefully staying at Fernando Girls Hostel by adding extra beds to the Weediawaththa Wickramarachchi Girls Hostel.
2. To accommodate eleven (11) male 2nd year students of 2020/ 2021 intake of Faculty of Indigenous Medicine, at Samagi Mawatha and Senevirathne Boys Hostels by adding extra beds as appropriate.
3. To add another part to the existing reading hall of Weediawaththa Wickramarachchi Girls Hostel.
4. To build a new extra toilet for the Weediawaththa Wickramarachchi Girl's Hostel.

5. To remove the fans fixed at Fernando Girls Hostel and Ranveli Boys Hostel and fix those fans at Weediyawaththa Wickramarachchi Girls Hostel, Samagi Mawatha Boys Hostel and Senevirathne Boys Hostel.
6. To seek the possibility of leasing a building located around the University which can be used to provide hostel facilities for around 150 students, instead of leasing small houses.

This decision is made in light of the current circumstances of the University and, therefore, should not serve as a precedent under any circumstances for any Faculty in the future. This decision strictly applies to the ongoing Academic Year of the 2020/2021 intake of the Faculty of Indigenous Medicine, and henceforth, these students or any other students in any intake of any Faculty of the University will not be entitled to claim hostel facilities in the next Academic Years based on this particular decision.
